SUBJECT INDEX

Active control

Active Control of Structures in Nonlinear Response, Manohar P. Kamat, AS Jan. 88 p52-62.

Aerial photography

Tax: Prototype Expert System for Terrain Analysis, Demetre P. Argialas and Ravi Narasimhan, AS July 88 p151-170.

Use of Aerial Photography to Inventory Aquatic Vegetation, Donald W. Schloesser, Charles L. Brown and Bruce A. Manny, AS July 88 p142-150.

Aerospace engineering

A Civil Engineer's View From Space, James D. A. van Hoften, AS Jan. 88 p28-34.

Aircraft

Wind Damage to Airport: Lessons Learned, Henry Liu and Fariborz Nateghi, AS Apr. 88 p105-116.

Algorithms

Active Control of Structures in Nonlinear Response, Manohar P. Kamat, AS Jan. 88 p52-62.

Aquatic plants

Use of Aerial Photography to Inventory Aquatic Vegetation, Donald W. Schloesser, Charles L. Brown and Bruce A. Manny, AS July 88 p142-150.

Artificial intelligence

Tax: Prototype Expert System for Terrain Analysis, Demetre P. Argialas and Ravi Narasimhan, AS July 88 p151-170.

Astronomy

Engineering for a 21st Century Lunar Observatory, Stewart W. Johnson, AS Jan. 88 p35-51.

Bending moments

Minimum Weight of a Sandwich Panel, Charles E. S. Ueng and T. L. Liu, AS Oct. 88 p248-253.

Ceramics

Introduction to Ceramic Matrix Composites in Aerospace Applications, Anthony N. Palazotto, Robert Ruh and George Watt, AS Apr. 88 p65-73.

Civil engineers

A Civil Engineer's View From Space, James D. A. van Hoften, AS Jan. 88 p28-34.

Composite fabrication

Introduction to Ceramic Matrix Composites in Aerospace Applications, Anthony N. Palazotto, Robert Ruh and George Watt, AS Apr. 88 p65-73.

Introduction to Metal Matrix Composites in Aerospace Applications, Anthony N. Palazotto, Robert Ruh and George Watt, AS Jan. 88 p3-17.

Composite materials

Introduction to Ceramic Matrix Composites in Aerospace Applications, Anthony N. Palazotto, Robert Ruh and George Watt, AS Apr. 88 p65-73.

Introduction to Metal Matrix Composites in Aerospace Applications, Anthony N. Palazotto, Robert Ruh and George Watt, AS Jan. 88 p3-17.

Composite structures

Simple and Generalized Residual Strength Model for Damaged Composites, C. S. Chu, AS July 88 p131-141.

Construction methods

Animation Tools for Extraterrestrial Construction, Walter E. Rodriguez-Ramos and Barney Jones, AS Oct. 88 p238-247.

Common Characteristics of Terrestrial and Space Construction, Leonhard Bernold, AS Oct. 88 p219-237.

Engineering Test Support for Construction in Space, Stewart W. Johnson and Raymond S. Leonard, AS Oct. 88 p206-218.

Damage assessment

Simple and Generalized Residual Strength Model for Damaged Composites, C. S. Chu, AS July 88 p131-141.

Wind Damage to Airport: Lessons Learned, Henry Liu and Fariborz Nateghi, AS Apr. 88 p105-116.

Deformation

Thermal Effects on Very Large Space Structures, Ramesh B. Malla, William A. Nash and Thomas J. Lardner, AS July 88 p171-190.

Delaminating

Simple and Generalized Residual Strength Model for Damaged Composites, C. S. Chu, AS July 88 p131-141.

Design criteria

Engineering Test Support for Construction in Space, Stewart W. Johnson and Raymond S. Leonard, AS Oct. 88 p206-218.

Earthquakes

Mapping of Landsat Satellite and Gravity Lineaments in West Tennessee, Demetre P. Argialas, Richard G. Stearns and Firouz Shahrokhi, AS Apr. 88 p74-87.

Expert systems

Tax: Prototype Expert System for Terrain Analysis, Demetre P. Argialas and Ravi Narasimhan, AS July 88 p151-170.

Fiber composites

Introduction to Metal Matrix Composites in Aerospace Applications, Anthony N. Palazotto, Robert Ruh and George Watt, AS Jan. 88 p3-17.

Fractures

Simple and Generalized Residual Strength Model for Damaged Composites, C. S. Chu, AS July 88 p131-141.

Graphic techniques

Animation Tools for Extraterrestrial Construction, Walter E. Rodriguez-Ramos and Barney Jones, AS Oct. 88 p238-247.

Gravity anomaly

Mapping of Landsat Satellite and Gravity Lineaments in West Tennessee, Demetre P. Argialas, Richard G. Stearns and Firouz Shahrokhi, AS Apr. 88 p74-87.

Great Lakes

Use of Aerial Photography to Inventory Aquatic Vegetation, Donald W. Schloesser, Charles L. Brown and Bruce A. Manny, AS July 88 p142-150.

Hangars

Wind Damage to Airport: Lessons Learned, Henry Liu and Fariborz Nateghi, AS Apr. 88 p105-116.

Impact

Simple and Generalized Residual Strength Model for Damaged Composites, C. S. Chu, AS July 88 p131-141.

Interferometry

Engineering for a 21st Century Lunar Observatory, Stewart W. Johnson, AS Jan. 88 p35-51.

Joints

Advanced Joining Concepts for Passive Vibration Control, Jacky C. Prucz, Filis Kokkinos and Constantine C. Spyrakos, AS Oct. 88 p193-205.

Landsat

Mapping of Landsat Satellite and Gravity Lineaments in West Tennessee, Demetre P. Argialas, Richard G. Stearns and Firouz Shahrokhi, AS Apr. 88 p74-87.

Large structures

Thermal Effects on Very Large Space Structures, Ramesh B. Malla, William A. Nash and Thomas J. Lardner, AS July 88 p171-190.

Materials, properties

Introduction to Ceramic Matrix Composites in Aerospace Applications, Anthony N. Palazotto, Robert Ruh and George Watt, AS Apr. 88 p65-73.

Introduction to Metal Matrix Composites in Aerospace Applications, Anthony N. Palazotto, Robert Ruh and George Watt, AS Jan. 88 p3-17.

Metals

Introduction to Metal Matrix Composites in Aerospace Applications, Anthony N. Palazotto, Robert Ruh and George Watt, AS Jan. 88 p3-17.

Minimum weight design

Minimum Weight of a Sandwich Panel, Charles E. S. Ueng and T. L. Liu, AS Oct. 88 p248-253.

Moon

Common Characteristics of Terrestrial and Space Construction, Leonhard Bernold, AS Oct. 88 p219-237.

Engineering for a 21st Century Lunar Observatory, Stewart W. Johnson, AS Jan. 88 p35-51.

Preparing to Bridge the Lunar Gap, Stephen J. Simmerer, AS Apr. 88 p117-128.

Nondestructive testing

Impulse Radar for Identification of Features in Soils, John G. Lyon, Charles A. Mitchell and Ted M. Zobeck, AS Jan. 88 p18-27.

Nonlinear response

Active Control of Structures in Nonlinear Response, Manohar P. Kamat, AS Jan. 88 p52-62.

Parameters

Identification of Large Space Structures: Overview, Task Committee on Methods for Identification of Large Structures in Space, Aerospace Division, ASCE, AS Apr. 88 p88-104.

Passive control

Advanced Joining Concepts for Passive Vibration Control, Jacky C. Prucz, Filis Kokkinos and Constantine C. Spyrakos, AS Oct. 88 p193-205.

Probabilistic methods

Tax: Prototype Expert System for Terrain Analysis, Demetre P. Argialas and Ravi Narasimhan, AS July 88 p151-170.

Radar

Impulse Radar for Identification of Features in Soils, John G. Lyon, Charles A. Mitchell and Ted M. Zobeck, AS Jan. 88 p18-27.

Radiation

Thermal Effects on Very Large Space Structures, Ramesh B. Malla, William A. Nash and Thomas J. Lardner, AS July 88 p171-190.

Remote control

Animation Tools for Extraterrestrial Construction, Walter E. Rodriguez-Ramos and Barney Jones, AS Oct. 88 p238-247.

Remote sensing

Impulse Radar for Identification of Features in Soils, John G. Lyon, Charles A. Mitchell and Ted M. Zobeck, AS Jan. 88 p18-27.

Residual strength

Simple and Generalized Residual Strength Model for Damaged Composites, C. S. Chu, AS July 88 p131-141.

Sandwich panel

Minimum Weight of a Sandwich Panel, Charles E. S. Ueng and T. L. Liu, AS Oct. 88 p248-253.

Soil layers

Impulse Radar for Identification of Features in Soils, John G. Lyon, Charles A. Mitchell and Ted M. Zobeck, AS Jan. 88 p18-27.

Soil properties

Impulse Radar for Identification of Features in Soils, John G. Lyon, Charles A. Mitchell and Ted M. Zobeck, AS Jan. 88 p18-27.

Space exploration

A Civil Engineer's View From Space. James D. A. van Hoften. AS Jan. 88 p28-34.

Preparing to Bridge the Lunar Gap. Stephen J. Simmerer. AS Apr. 88 p117-128.

Space structures

Active Control of Structures in Nonlinear Response. Manohar P. Kamat. AS Jan. 88 p52-62.

Animation Tools for Extraterrestrial Construction. Walter E. Rodriguez-Ramos and Barney Jones. AS Oct. 88 p238-247.

Common Characteristics of Terrestrial and Space Construction. Leonhard Bernold. AS Oct. 88 p219-237.

Engineering Test Support for Construction in Space. Stewart W. Johnson and Raymond S. Leonard. AS Oct. 88 p206-218.

Identification of Large Space Structures: Overview. Task Committee on Methods for Identification of Large Structures in Space. Aerospace Division. ASCE. AS Apr. 88 p88-104.

Thermal Effects on Very Large Space Structures. Ramesh B. Malla. William A. Nash and Thomas J. Lardner. AS July 88 p171-190.

Strength

Introduction to Ceramic Matrix Composites in Aerospace Applications. Anthony N. Palazotto. Robert Ruh and George Watt. AS Apr. 88 p65-73.

Structural analysis

Identification of Large Space Structures: Overview. Task Committee on Methods for Identification of Large Structures in Space. Aerospace Division. ASCE. AS Apr. 88 p88-104.

Thermal Effects on Very Large Space Structures. Ramesh B. Malla. William A. Nash and Thomas J. Lardner. AS July 88 p171-190.

Structural dynamics

Identification of Large Space Structures: Overview. Task Committee on Methods for Identification of Large Structures in Space. Aerospace Division. ASCE. AS Apr. 88 p88-104.

Technology

Preparing to Bridge the Lunar Gap. Stephen J. Simmerer. AS Apr. 88 p117-128.

Telescopes

Engineering for a 21st Century Lunar Observatory. Stewart W. Johnson. AS Jan. 88 p35-51.

Tennessee

Mapping of Landsat Satellite and Gravity Lineaments in West Tennessee. Demetre P. Argialas. Richard G. Stearns and Firouz Shahrokhi. AS Apr. 88 p74-87.

Terrain models

Tax: Prototype Expert System for Terrain Analysis. Demetre P. Argialas and Ravi Narasimhan. AS July 88 p151-170.

Testing

Engineering Test Support for Construction in Space. Stewart W. Johnson and Raymond S. Leonard. AS Oct. 88 p206-218.

Thermal analysis

Thermal Effects on Very Large Space Structures. Ramesh B. Malla. William A. Nash and Thomas J. Lardner. AS July 88 p171-190.

Thermal resistance

Introduction to Ceramic Matrix Composites in Aerospace Applications. Anthony N. Palazotto. Robert Ruh and George Watt. AS Apr. 88 p65-73.

Vegetation

Use of Aerial Photography to Inventory Aquatic Vegetation. Donald W. Schloesser. Charles L. Brown and Bruce A. Manny. AS July 88 p142-150.

Vibration control

Active Control of Structures in Nonlinear Response. Manohar P. Kamat. AS Jan. 88 p52-62.

Advanced Joining Concepts for Passive Vibration Control. Jacky C. Prucz. Filis Kokkinos and Constantine C. Spyrakos. AS Oct. 88 p193-205.

Wind pressure

Wind Damage to Airport: Lessons Learned. Henry Liu and Fariborz Nateghi. AS Apr. 88 p105-116.

AUTHOR INDEX

Argialas, Demetre P.
Mapping of Landsat Satellite and Gravity Lineaments in West Tennessee, with Richard G. Stearns and Firouz Shahrokhi, AS Apr. 88, p74-87
Tax: Prototype Expert System for Terrain Analysis, with Ravi Narasimhan, AS July 88, p151-170

Bernold, Leonhard
